& Social Work**

**Date: Thursday  
January 29<sup>th</sup>, 2026  
Time: 11:30AM  
Room: AHC5-300**

## Neuroscience Speaker Series

Sponsored by:

NIEHS T32 Training in Environmental Neuroscience Program ([TENS](#))

# Seminar: Fine particulate exposures at the WTC: What do we know and what can we know?

**Sean Clouston, Ph.D.  
Stony Brook University, NYC**

Dr. Clouston, PhD, is a longitudinal life course epidemiologist interested in the role of long-term and chronic exposures in relation to aging-related outcomes. Dr. Clouston helps to monitor the role of long-duration exposures at the World Trade Center on neurological health of responders to the events following the 9/11/2001 attacks.

A second line of research seeks to examine social determinants of Alzheimer's Disease and related dementias using a novel method to algorithmically-diagnose Alzheimer's disease. His work is incorporated into a number of other research programs at Stony Brook University in the fields of Psychiatry, Psychology, and Computer Science

Course Director Dr Roberto Lucchini
